

Technology Today, Technology Tomorrow: Might Learning Evolutions lead to Learning Revolutions?

Curtis J. Bonk, Professor, Indiana University

cjbonk@indiana.edu

<http://curtbonk.com/>

Talk Overview

1. Technology Yesterday
2. Technology Today

30 ways learning is changing...

Megatrends of Learning:

- a. Engagement
- b. Access, and
- c. Customization

3. Technology Tomorrow and Future Trends

The Evolution of E-Learning (All 7 year cycles)

Phase I, 1994:
THE AGE OF
PORTALS AND
PAGES (NETSCAPE
GOES PUBLIC).

Phase II, 2001:
THE AGE OF
OPENNESS
(MIT OCW &
WIKIPEDIA BORN).

Phase III, 2008:
THE AGE OF
MOOCs (FIRST
MOOC OFFERED).

Phase IV, 2015
THE AGE OF
PERSONALIZATION.

Other prior significant e-learning dates: 1985: FIRST ONLINE COURSE, LINDA HARASIM, UNIV. OF TORONTO
1987: HYPERCARD FIRST SHIPPED.

Part 1: Technology Yesterday

Poll: Remember Education 1.0

1728: 1st correspondence course advertised Boston
(learn shorthand from Caleb Phillips thru weekly mailed lessons)

The First University Correspondence Course
(University of London, External Program, 1858)

1728-1990s – Generally postal system based

Fall 2014, On Wisconsin

MOOC, Meet MORC (Massive Open Radio Course)

WHA, UW Madison, College of the Air, 1933,
Vocational Training dedicated to Agriculture,
and later Home Economics and Typing

MOOC, Meet MORC

Mimeograph machine.

Winky Dink and ... Bill Gates?, Bob Greene, March 31, 2013, CNN

A girls uses her "Winky Dink" drawing kit to draw on a TV screen as they watch the 1950s kids program.

June 3, 2017

How PLATO changed the World...in 1960 Cait Etherington, ElearningInside News

<https://news.elearninginside.com/how-plato-changed-the-world-in-1960/>
PLATO was the first generalized computer-assisted instruction system. Starting in 1960, it ran on the University of Illinois' ILLIAC I computer. By the late 1970s, it supported several thousand graphics terminals distributed worldwide, running on nearly a dozen different networked mainframe computers. Many modern concepts in multi-user computing were originally developed on PLATO, including forums, message boards, online testing, e-mail, chat rooms, picture languages, instant messaging, remote screen sharing, and multiplayer games.

Intelligence Augmentation and Amplification Douglas Engelbart's "The Mother of All Inventions" (1968) Augmentation Research Center (ARC)

(The live demonstration featured the introduction of the computer mouse, video conferencing, teleconferencing, hypertext, word processing, hypermedia, object addressing and dynamic file linking, bootstrapping, and a collaborative real-time editor.)
<http://www.amaa.com/TheMuseum/Engelbart/Engelbart/00/0002/000000>

Engelbart's prototype of a computer mouse, as designed by Bill English from Engelbart's sketches.

Reimagine Your Learning Space:
Starbucks Your Classroom!

Oskar Cymerman, Teaching Channel

<https://www.teachingchannel.org/blog/2016/07/29/starbucks-your-classroom/>

Sterile, industrial-era rows aren't very attractive or motivating. Even more, I've become convinced that traditional educational settings dull the senses...I believe the "Starbucks" environment will promote that freedom and movement. Freedom is the key ingredient to social-emotional well-being and deeper learning. Rows and columns constrict. They hold and stifle. That is the truth. That is the reality in many U.S. classrooms today. But no longer in mine. Never again.

Education 3.0...Education 20/20

"In Education 3.0, classrooms would move away from lectures, such as this one, to having class time be spent on discussions and projects, using digital technology."
(Per Wikipedia: https://en.wikipedia.org/wiki/Education_3.0)

Now What is Education 4.0?

"Innovation-producing education. Learn more in:
Development of Individual Agency within a Collaborative,
Creative Learning Community"

<http://www.igi-global.com/dictionary/education-40/41755>
<https://thinc.in.th/engadmission/education4.html> (Chula Engineering)

AI Question Asking

(Paul Kim keynote in Taiwan; Education 4.0 Conference)

<https://www.facebook.com/digitalschema>

<https://www.facebook.com/videos/10217854957270186/>

- Level 1**
 - When did Elon successfully launch the SpaceX program?
 - Who admitted that launching the car into space was "kind of silly and fun"?
- Level 2**
 - What are the things Tesla designed?
 - What were the things Tesla couldn't determine the cause of?
- Level 3**
 - How do you compare Elon Musk and Nicolas Tesla?
 - How is Mars different from Jupiter?
- Level 4**
 - Why did Tesla built a plant in Colorado, not in New York?
 - Why did Tesla at first consider whether they were "electrical disturbances as are produced by the sun"?
- Level 5**
 - If he did not devise ever-more sensitive receivers to detect these waves, what could have been the consequence?
 - If he did not introduce the AC motor in the late 1880, what would have been the consequence?

(Paul Kim, Taiwan, November 2018)

Can Artificial Intelligence Make Teaching More Personal?

A new grading tool called **gradescope** — powered by AI and now being used for more than 175,000 students at 550 colleges — offers one window on the possibilities.

The tool helps automate the grading process without requiring instructors to rely on multiple-choice tests. Several professors who use it say the automation has actually made it easier for them to personalize their teaching.

At the University of Michigan at Ann Arbor, students in a statistics class last fall had their writing assignments evaluated by an **automated text-analysis tool**.

October 30, 2017 Weirdness #14: MOOCs ramp up new fields Report: 59% of employed data scientists learned skills on their own or via a MOOC

Alison DeNisco Rayome

<https://www.techrepublic.com/article/report-59-of-employed-data-scientists-learned-skills-on-their-own-or-via-a-mooc/>

Report: 59% of employed data scientists learned skills on their own or via a MOOC

How much more do you know about data science? Well, you may not need a degree or certificate anymore to get up to speed on the latest trends in the field.

According to a new report from TechRepublic, 59% of employed data scientists learned skills on their own or via a MOOC.

That's a significant increase from a year ago, when only 45% of data scientists reported learning skills on their own or via a MOOC.

The report also found that 68% of data scientists learned skills on their own or via a MOOC in the last year.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

And, it's a great way to learn skills that are in high demand.

So, if you're a data scientist, you may want to consider learning skills on your own or via a MOOC.

It's a great way to stay up to date on the latest trends in the field.

- Saving money with open-ed resources.**
- A large-scale effort to encourage the use of open-education resources has helped students save money and bolstered their learning, according to a report, released today, on the findings from the second year of Achieving the Dream's OER Degree Initiative. The study found that:
 - Students saved between \$66 and \$121 per course.
 - Over 60 percent of students reported that the overall quality of their learning experience in an OER course was higher in comparison to a typical, non-OER course.
 - The number of OER courses at participating institutions jumped from 13 in 2016 to 385 in the spring of 2018; the number of students enrolled in OER courses went from 3,464 in 2016 to 37,398 in 2017.
