UNIVERSITY OF HOUSTON College of Medicine Report

January 2018

https://uh.edu/medicine/_documents/college-of-medicine-report-v2.pdf

BIOLOGICAL SCIENCES CURRICULUM

- Innovation and best practice teaching methods will be utilized including problem-based, case-based, and team-based learning. "Target outcomes" should emphasize building the use of evidenced-based, intrinsically-motivated, and active learning.

Behavioral and Social Sciences Curriculum

- The teaching of the behavioral and social sciences will be integrated in the first 15 months of the curriculum. For behavioral sciences concepts will be reinforced and applied during the remaining months of the curriculum that are more directly focused.
- The behavioral sciences will be taught within the context of these objectives to clinical practice, utilizing clinical simulations and clinical problem-solving through problem-based, case-based, and team-based learning exercises. Clinical case faculty will join behavioral sciences faculty as co-teachers in the past of curriculum.

2019 Increasing Demand for Digital Learning Experience and Instructional Design Expertise EDUCAUSE Horizons Report, 2019 Higher Education Edition

<https://library.educause.edu/-/media/Files/Library/2019/4/2019HorizonsReport.pdf>

Summary

Increasing Demand for Digital Learning Experience and Instructional Design Expertise

The growing instructional design and the demand for digital learning experience and instructional design expertise is a key trend in higher education. The report highlights the need for higher education to invest in digital learning experience and instructional design expertise to meet the demand for digital learning experience and instructional design expertise. The report also highlights the need for higher education to invest in digital learning experience and instructional design expertise to meet the demand for digital learning experience and instructional design expertise.

July 29, 2016 Reimagine Your Learning Space: Starbucks Your Classroom!

Oskar Cymerman, Teaching Channel

<https://www.teachingchannel.org/blog/2016/07/29/starbucks-your-classroom/>

Sterile, industrial-era rows aren't very attractive or motivating. Even more, I've become convinced that traditional educational settings dull the senses...I believe the "Starbucks" environment will promote that freedom and movement. Freedom is the key ingredient to social-emotional well-being and deeper learning. Rows and columns constrict. They hold and stifle. That is the truth. That is the reality in many U.S. classrooms today. But no longer in mine. Never again.

Bonk's Last Principles of Teaching/Instruction (Education 4.0?)

<http://travelinredman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
<http://www.applicallhai.com/articles/education-4-0/>

27

1. The Principle of Flexibility

<http://travelinredman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
 (e.g., multiple due dates, grace period, flexible agenda, etc.)

28

2. The Principle of Convenience

<http://travelinredman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
 (e.g., multiple ways to turn in, record the class, get student input on time to teach the class, etc.)

29

3. The Principle of Collegiality

<http://travelinredman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
 (e.g., help turn papers into publications, introduce students to colleagues, ask them to share resources and papers with you, etc.)

30

4. The Principle of Cheerfulness and Optimism

<http://travelinmedman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
(e.g., smile, celebrate accomplishments, positive feedback before any criticisms, etc.)

31

5. The Principle of High Expectations

<http://travelinmedman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
(e.g., post high quality student work, challenge, offer job aids, mention students prior successes like conference presentations from final projects, etc.)

32

6. The Principle of Choice and Options

<http://travelinmedman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
(e.g., sign up for weeks to present, have 10 midterm or final options and pick any 4, choose if want to work as a group/team or individually submit, etc.)

33

7. The Principle of Empowerment and Autonomy

<http://travelinmedman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
(e.g., build something for a wider audience, design, negotiate the syllabus in a wiki, students vote on agenda items, student presentations of final projects, etc.)

34

8. The Principle of Support and Feedback

<http://travelinmedman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>
(e.g., offer extensive feedback, assign critical friends for feedback, offer summary feedback for common questions, use job aids and scaffolds, etc.)

35

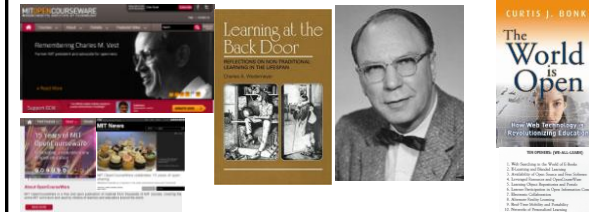

Bonk's 20 "Last" Principles of Instruction (LAST = Learning Activation System Template)

<http://travelinmedman.blogspot.com/2011/05/bonks-last-principles-of-instruction.html>

Flexibility	Support and Feedback	Choice and Options
Convenience	Spontaneity	Nontraditional Learning
Collegiality	Organization	Passion and Inspiration
Cheerfulness and Optimism	Sharing	Relevance and Meaningfulness
High Expectations	Purpose and Vision	Trial and Error (i.e., it is ok to fail)
Empowerment and Autonomy	Human Connectedness	Expanded Resources
	Cognitive Apprenticeship	#20 ???

Learning is More Personal Can Artificial Intelligence Make Teaching More Personal? Goldie Blumenstyk, The Chronicle of Higher Education

<https://www.chronicle.com/article/Can-Artificial-Intelligence/243023>

Can Artificial Intelligence Make Teaching More Personal?

A new grading tool called **Gradescope** — powered by AI and now being used for more than 175,000 students at 550 colleges — offers one window on the possibilities.

The tool helps automate the grading process without requiring instructors to rely on multiple-choice tests. Several professors who use it say the automation has actually made it easier for them to personalize their teaching.

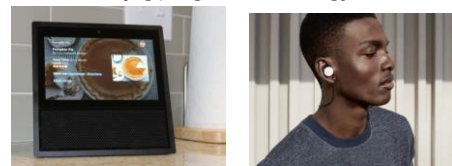

At the University of Michigan at Ann Arbor, students in a statistics class last fall had their writing assignments evaluated by an **automated text-analysis tool**.

Learning is More On Demand

What I Learned When My Students Used Google Translate

Diane Loyet, The Chronicle of Higher Education
<https://www.chronicle.com/article/What-I-Learned-When-My-243017>

- I was very surprised by the results. They sent me examples of translations into English from Albanian, Chinese, Kazakh, Russian, and Spanish. **The translations from Albanian, Kazakh, Russian, and Spanish were good.** They were not perfect, but the mistakes were such that, had I encountered the sentences in a student paper, I would have attributed them to grammatical errors on the part of the non-native speaker of English. Here is one of the Spanish examples:
- Original Spanish:** Si yo fuera tú, le cobrara hasta por respirar.
- Google Translate's English translation:** If I were you, I'll even charge you for breathing.
- Accurate translation:** If I were you, I would even charge him for breathing

The Future of Learning, Transforming Access
Simon Nelson, CEO, FutureLearn, PCF9 Conference, Edinburgh, Scotland

And the threat of AI and automation is very real. A 2017 report by McKinsey found that half of all current work activities could be automated, using technology that already exists, and that by 2030 anywhere from 75 million to 375 million workers worldwide will be displaced from their old jobs and require retraining.

Learning is More Massive
The Future of Learning, Transforming Access
Simon Nelson, CEO, FutureLearn, PCF9 Conference, Edinburgh, Scotland

(That would require around 13 new universities to be built each week, each serving 20,000 students, if they were all to be educated in person. That is obviously unfeasible.)

 Griffiths, R., Gardner, S., Lundh, P., Shear, L., Ball, A., Mislevy, J., Wang, S., Desrochers, D., Staloff, R. (2018). *Participant Experiences and Financial Impacts: Findings from Year 2 of Achieving the Dream's OER Degree Initiative*. Menlo Park, CA: SRI International.

- Saving money with open-ed resources.
- A large-scale effort to encourage the use of open-education resources has helped students save money and bolstered their learning, according to a report released today, on the findings from the second year of Achieving the Dream's OER Degree Initiative. The study found that:
 - Students saved between \$66 and \$122 per course.
 - Over 60 percent of students reported that the overall quality of their learning experience in an OER course was higher in comparison to a typical, non-OER course.
 - The number of OER courses at participating institutions jumped from 13 in 2016 to 385 in the spring of 2018; the number of students enrolled in OER courses went from 3,404 in 2016 to 37,398 in 2017.
