

Technology Today, Technology Tomorrow: Might Learning Evolutions lead to Learning Revolutions?

Curtis J. Bonk, Professor, Indiana University

cjbonk@indiana.edu

<http://curtbonk.com/>

Talk Overview

1. Technology Yesterday
2. Technology Today

30 ways learning is changing...

Megatrends of Learning:

- a. Engagement
- b. Access, and
- c. Customization

3. Technology Tomorrow and Future Trends

The Evolution of E-Learning (All 7 year cycles)

Phase I, 1994:
THE AGE OF
PORTALS AND
PAGES (NETSCAPE
GOES PUBLIC).

Phase II, 2001:
THE AGE OF
OPENNESS
(MIT OCW &
WIKIPEDIA BORN).

Phase III, 2008:
THE AGE OF
MOOCs (FIRST
MOOC OFFERED).

Phase IV, 2015
THE AGE OF
PERSONALIZATION.

Other prior significant e-learning dates: 1985: FIRST ONLINE COURSE, LINDA HARASIM, UNIV. OF TORONTO
1987: HYPERCARD FIRST SHIPPED.

Part 1: Technology Yesterday

Poll: Remember Education 1.0

1728: 1st correspondence course advertised Boston
(learn shorthand from Caleb Phillips thru weekly mailed lessons)

The First University Correspondence Course
(University of London, External Program, 1858)

1728-1990s – Generally postal system based

Fall 2014, On Wisconsin

MOOC, Meet MORC (Massive Open Radio Course)

WHA, UW Madison, College of the Air, 1933,
Vocational Training dedicated to Agriculture,
and later Home Economics and Typing

MOOC, Meet MORC

Mimeograph machine.

June 3, 2017 How PLATO changed the World...in 1960 Cait Etherington, ElearningInside News

<https://news.elearninginside.com/how-plato-changed-the-world-in-1960/>
PLATO was the first generalized computer-assisted instruction system. Starting in 1960, it ran on the University of Illinois' ILLIAC I computer. By the late 1970s, it supported several thousand graphics terminals distributed worldwide, running on nearly a dozen different networked mainframe computers. Many modern concepts in multi-user computing were originally developed on PLATO, including forums, message boards, online testing, e-mail, chat rooms, picture languages, instant messaging, remote screen sharing, and multiplayer games.

Intelligence Augmentation and Amplification Douglas Engelbart's "The Mother of All Inventions" (1968)

Augmentation Research Center (ARC)
(The live demonstration featured the introduction of the computer mouse, video conferencing, teleconferencing, hypertext, word processing, hypermedia, object addressing and dynamic file linking, bootstrapping, and a collaborative real-time editor.)
<http://www.amazon.com/Intelligence-Augmentation-Science-Common-Reason/dp/0966309603>

Engelbart's prototype of a computer mouse, as designed by Bill English from Engelbart's sketches.

The Creation of Effective Learning Environments

<http://study.com/academy/lesson/learning-environment-in-the-classroom-definition-importance.html>

July 29, 2016 Reimagine Your Learning Space: Starbucks Your Classroom!

Oskar Cymerman, Teaching Channel

<https://www.teachingchannel.org/blog/2016/07/29/starbucks-your-classroom/>

Sterile, industrial-era rows aren't very attractive or motivating. Even more, I've become convinced that traditional educational settings dull the senses...I believe the "Starbucks" environment will promote that freedom and movement. Freedom is the key ingredient to social-emotional well-being and deeper learning. Rows and columns constrict. They hold and stifle. That is the truth. That is the reality in many U.S. classrooms today. But no longer in mine. Never again.

Education 3.0...Education 20/20

"In Education 3.0, classrooms would move away from lectures, such as this one, to having class time be spent on discussions and projects, using digital technology."
(Per Wikipedia: https://en.wikipedia.org/wiki/Education_3.0)

Now What is Education 4.0?

"Innovation-producing education. Learn more in:
Development of Individual Agency within a Collaborative,
Creative Learning Community"

<http://www.igi-global.com/dictionary/education-40/41755>

AI Question Asking

(Paul Kim keynote in Taiwan; Education 4.0 Conference)

<https://www.facebook.com/digitalschema>

<https://www.facebook.com/digitalschema/videos/10217854957270186/>

Question Answering: Level 1 – Level 5

(Paul Kim, Taiwan, November 2018)

Question: Why is turbulence dangerous to small airplanes?

Answer: Wake turbulence is exacerbated by a pair of vortices that spin from the wings. The vortices are mostly created when a plane is flying close and the wings are working hardest to produce lift. The bigger the plane, the bigger the wakes. The most violent wakes leave smaller planes more vulnerable should they run into one.

Level1 question; 99.999118% confidence

Show evaluation metric

Disagree? Submit your evaluation below

Level 1 Level 2 Level 3 Level 4 Level 5

Level 1	<ul style="list-style-type: none"> When did Elon successfully launch the SpaceX program? Who admitted that launching the car into space was "kind of silly and fun"?
Level 2	<ul style="list-style-type: none"> What are the things Tesla designed? What were the things Tesla couldn't determine the cause of?
Level 3	<ul style="list-style-type: none"> How do you compare Elon Musk and Nicolas Tesla? How is Mars different from Jupiter?
Level 4	<ul style="list-style-type: none"> Why did Tesla build a plant in Colorado, not in New York? Why did Tesla at first consider whether they were "electrical disturbances as are produced by the sun"?
Level 5	<ul style="list-style-type: none"> If he did not devise ever-more sensitive receivers to detect these waves, what could have been the consequence? If he did not introduce the AC motor in the late 1880, what would have been the consequence?

(Paul Kim, Taiwan, November 2018)

The Mantis Cam Gives Us a Peek into a Whole New Ocean World

NLT NEW LEARNING TIMES

used for communication, navigation, predator detection, or other purposes, marine biologists might finally be able to find out with this new technology.

What other advantages might these cameras offer to the research community? Why do we consider water so much more and so many resources into exploring and understanding the ocean world? Add your voice to the discussion on Flipgrid.

Forward from the discussion:

Alberta Science Software is interested in thinking about developing technology we can use to experience the world from the perspective of other animals. I wonder if similar devices could be produced that would enable us to see several waves beyond our normal range.

Don't Be Rude! The ocean is still a great mystery to us, creatures that live there are so foreign. There is still so much to discover, and research that this helps us understand life in the ocean more. Maybe once we understand the ocean more, we will be better able to take care of the earth than we are now.

TeachMeNow

TeachMeNow is a gig-economy platform for teachers. This marketplace connects teachers, experts, and mentors to students. The technology combines scheduling, payments and live virtual sessions that can connect on any device allows tens of thousands of teachers to create their own online businesses, with some earning over \$100,000 last year. In addition, schools and companies including Microsoft use TeachMeNow software to create their own-branded online learning communities.

Can Artificial Intelligence Make Teaching More Personal?

A new grading tool called **Gradescope** — powered by AI and now being used for more than 175,000 students at 550 colleges — offers one window on the possibilities.

The tool helps automate the grading process without requiring instructors to rely on multiple-choice tests. Several professors who use it say the automation has actually made it easier for them to personalize their teaching.

At the University of Michigan at Ann Arbor, students in a statistics class last fall had their writing assignments evaluated by an **automated text-analysis tool**.

Learning is More On Demand
What I Learned When My Students Used Google Translate
Diane Loyet, The Chronicle of Higher Education
<https://www.chronicle.com/article/What-I-Learned-When-My/243017>

- I was very surprised by the results. They sent me examples of translations into English from Albanian, Chinese, Kazakh, Russian, and Spanish. **The translations from Albanian, Kazakh, Russian, and Spanish were good. They were not perfect, but the mistakes were such that, had I encountered the sentences in a student paper, I would have attributed them to grammatical errors on the part of the non-native speaker of English.** Here is one of the Spanish examples:
- Original Spanish:** *Si yo fuera tú, le cobrara hasta por respirar.*
- Google Translate's English translation:** *If I were you, I'll even charge you for breathing.*
- Accurate translation:** *If I were you, I would even charge him for breathing.*

April 8, 2018**Learning is More On Demand****What I Learned When My Students Used Google Translate**

Diane Loyet, The Chronicle of Higher Education

<https://www.chronicle.com/article/What-I-Learned-When-My/243037>

- In contrast, Google Translate's English version of a Chinese passage was unintelligible:
- But the second language acquisition is a steady process, if you take a cure to do, that is, chronic diseases and even health care, unlike acute disease, once the recipe to treatment, the consequences will soon be reflected.

**November 29, 2018**

Griffiths, R., Gardner, S., Lundh, P., Shear, L., Ball, A., Milevsky, J., Wang, S., Desrochers, D., Stalsloff, R. (2018). *Participant Experiences and Financial Impacts: Findings from Year 2 of Achieving the Dream's OER Degree Initiative*. Menlo Park, CA: SRI International.

Saving money with open-ed resources.

- A large-scale effort to encourage the use of open-education resources has helped students save money and bolstered their learning, according to a report, released today, on the findings from the second year of Achieving the Dream's OER Degree Initiative. The study found that:
 - Students saved between \$66 and \$121 per course.
 - Over 60 percent of students reported that the overall quality of their learning experience in an OER course was higher in comparison to a typical, non-OER course.
 - The number of OER courses at participating institutions jumped from 13 in 2016 to 385 in the spring of 2018; the number of students enrolled in OER courses went from 3,404 in 2016 to 37,398 in 2017.
