

Poll #1. Have you taught, taken, or designed a blended learning course?

A = yes

B = no

C = not sure, I am here to find out what blended means

This the talk will cover:

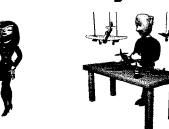

- 1. Definitions of blended learning
- 2. Advantages and disadvantages
- 3. Models of blended learning
- 4. Examples of blended learning
- 5. Implications for blended learning

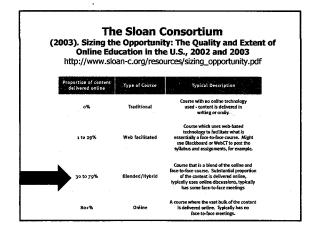

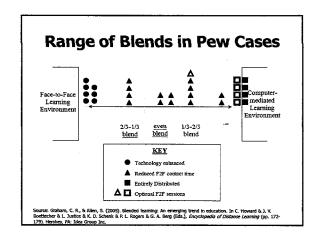

Part 1: Definitions, Frameworks and Models of Blended Learning...

- 1. Blending Online and F2F Instruction
- "Blended learning refers to events that combine aspects of online and face-to-face instruction" (Rooney, 2003, p. 26; Ward & LaBranche, 2003, p. 22)

Where is Blended Beneficial?

http://www.center.rpi.edu/PewGrant/ProjDesc.html

- Large Classes (spanish, intro psych, algebra, elementary statistics, biology)
- · Classes with working students
- Students spread over a distance
- · Classes with certification
- Classes with need for standardization
- · New requirements for a profession
- · Writing intensive classes
- Theory classes

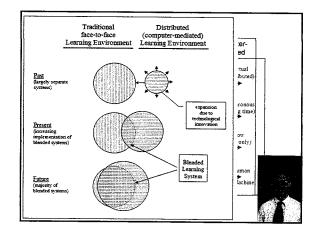

Examples of Blended Learning, Margaret Driscoll, e-Learning, March 2002

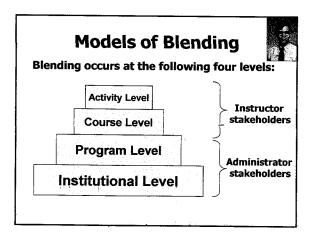

- · Put assessments/reviews online
- Follow-up in community of practice
- Put reference materials on Web
- Deliver pre-work online
- Provide office hours online
- Use mentoring/coaching tool
- Access experts live online
- Use e-mail and instant messaging

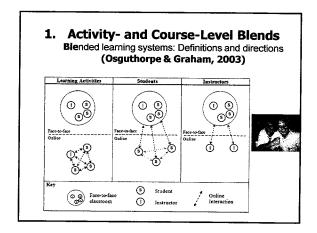

Fully Online and Blended Learning Advantages

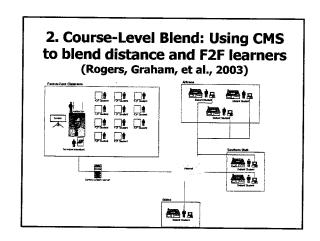

- 1. Increased Learning (better papers, higher scores)
- 2. More effective pedagogy and interaction
- Course access at one's convenience and flexible completion (e.g., multiple ways to meet course objectives)
- 4. Reduction in physical class or space needs, commuting, parking
- Increased opportunities for human interaction, communication, & contact among students
- 6. Introverts participate more

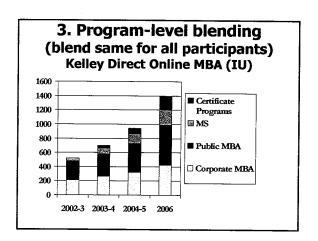

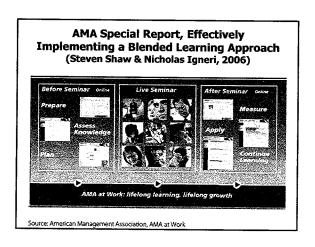

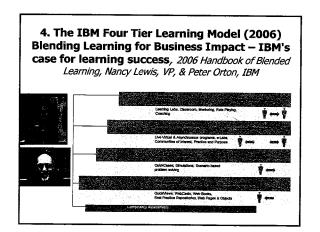

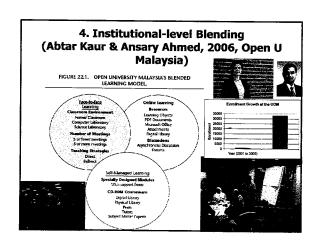

4. Institutional-level Blending

(Brian Linquist, 2006)

Example 2: University of Phoenix

- Completely online courses
- Residential F2F courses
- Blended Courses
 - Local Model = 5 week courses with first and last week F2F
 - Distance Model = 5 week courses with half first and half last week F2F (the last meeting of one course is coordinated to be back-toback with the first meeting of the next 5 week course)

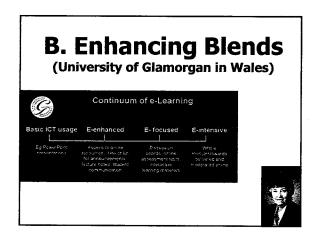

A. Enabling Blends
National University
Department of Teacher Education
(Reynolds & Greiner, 2006)

- 12,000 Enrolled Students
- Since 2004 More than 50% of Candidates Enrolling as Online rather than On-site
 - They will take a majority of classes online
- Each Candidate Takes 7 Credential Classes
- Each Class Contains 2 Field-based Exp.
- 500 Classes/Yr. & 20 Students/Class =
- 20,000 Field-based Experiences/Year

Total Active Students	25,436		27.589		. 27,077		25.993		26,138	
None	21.661	80%	19.015	59%	16,044	59%	12,225	47%	10,394	40%
In All Online	332	1%	1,747	6%	2,602	10%	4,217	16%	5,645	229
In A Majority Online	763	3%	5,713	21%	7,012	26°/a	9,107	35%	11,203	439

99 seconds: What have you learned so far?

 Solid and Fuzzy in groups of two to four

Problem Situation #1: Brief FTF Experiences

 Face-to-face (FTF) experiences are brief, one-week journeys.
 Need to need to build selfconfidence, create social supports, teams, camaraderie, etc.

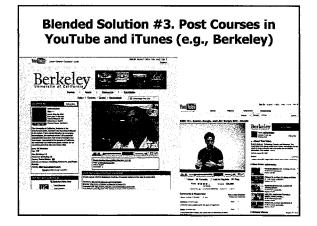

Blended Solution #1+. Sample Activities for Brief Meetings

- Assign web buddies, email pals, critical friends based on interests, confidence, location, etc.
- 2. Ice breakers—paired introductions, corners.
- 3. Solve case in team competitions with awards.
- 4. Test technology in a lab.
- 5. Assign teams and exchange info for small teams using text messaging.
- 6. Library (digital and physical) scavenger hunt.
- 7. Do a podcast documenting the meeting.
- 8. Have everyone create a blog on the experience.
- 9. Open an e-portfolio for each student
- 10. Brainstorm how might use technology in program.

Problem Situation #2: Student Absenteeism

 Students miss class to attend a conference or event or a personal problem arises. Or students asks to watch the class a second time.

Problem Situation #3: Facilities and Time

 Limited facilities or rooms for teaching. Or students cannot make it to class every week or are working full time.

Blended Solution #4.

Divide Online and Class Experiences: English Classes
Online

Graham, Ure, & Allen (2003, July). Blended Learning Environn A Literature Review and Proposed Research Agenda

 Freshman English at BYU: Students are required to meet F2F once a week instead of three times a week. Online modules provide writing instruction and teaching assistants use online and F2F contact to provide feedback and guidance on writing (Waddoups et al., 2003).

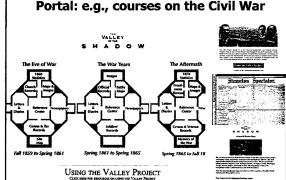

Problem Situation #4: Web Supplemental Activities

 Fail to finish class discussion or other activity in time. Or desire to integrate the Web more in your face-to-face instruction or outside of class. Want to provide course resources and activities for students to explore.

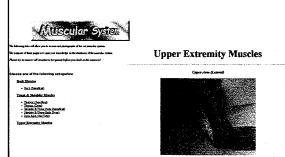

Blended Solution #5. Online History Portals and Resources (Civil Rights Digital Library and Amistad)

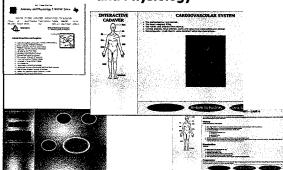

Blended Solution #6. Online Course Portal: e.g., courses on the Civil War

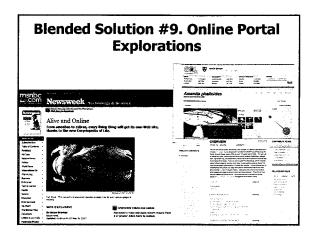

Blended Solution #7. Online Testing Center: e.g., self study in anatomy

Blended Solution #8. Online Anatomy and Physiology

Problem Situation #5: Student Learning Control

 Want to give students more control and ownership over their own learning. Want to foster student generative learning or being authors of their own knowledge.

Blended Solution #10: Student Podcast (in schools—kids have power!)

"Just the word 'podcast' scares a lot of teachers away," Ms. Schrock said. "There are a lot of misconceptions."

"All you need is a computer, access to the Internet and a microphone that you can buy at Toys 'R' Us," Mr. Warlick said. "I listen to podcasts on my computer." (NY Times, Jan 25, 2006)

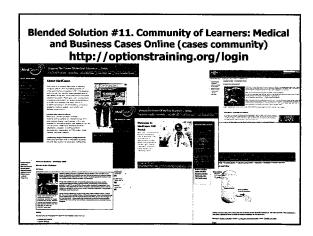

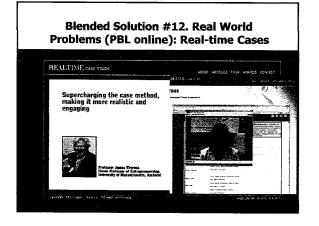

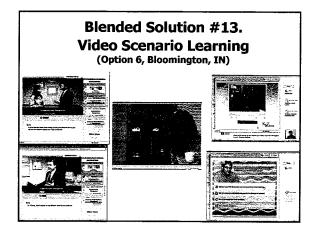

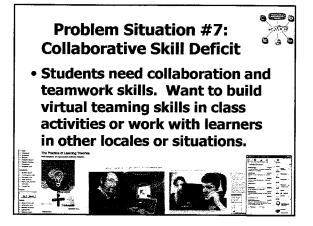

Problem Situation #6: Preparedness for the Profession

 Students are not prepared for their professions when they graduate. Or want to better apprentice students into their chosen profession. What to provide opportunities to work with practitioners, experts, mentors, and coaches in authentic learning environment.

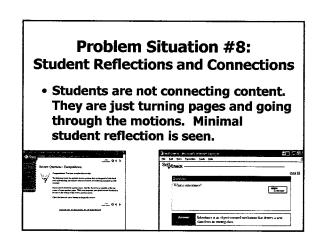

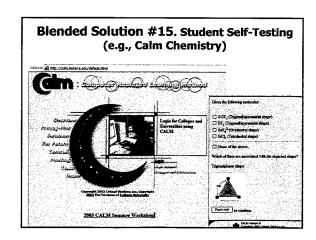

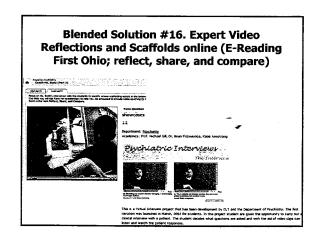

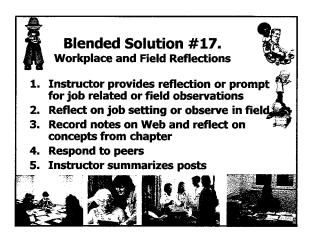

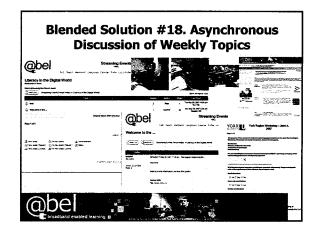

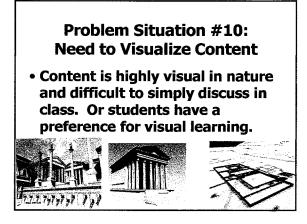

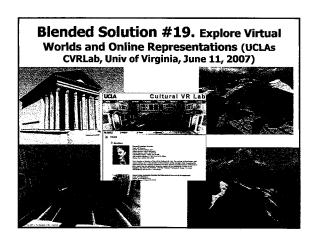

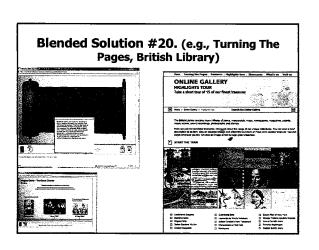

Problem Situation #9: Learning Community

 There is a preference for creating an online learning community in order to increase student learning and retention in the program. Such a community might be in a single class or across a series of classes.

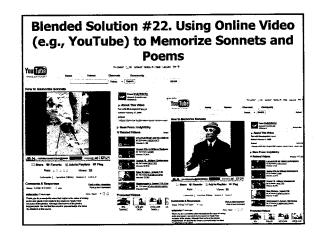

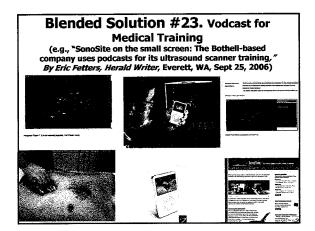

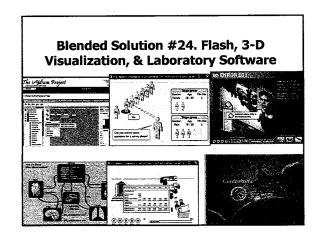

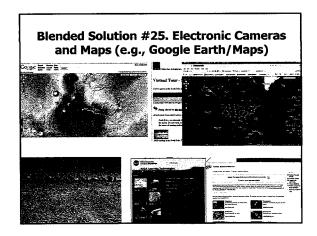

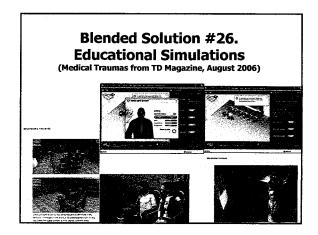

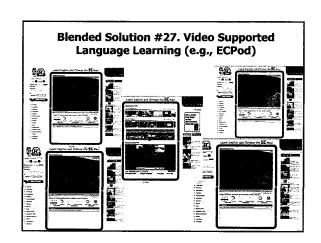

Problem Situation #11: Need for Hands-On Learning

 To learn the material requires that students try it out in a lab or real-world situation. Or students prefer hands-on learning ' activities.

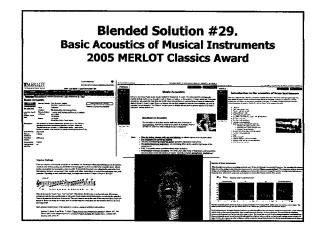

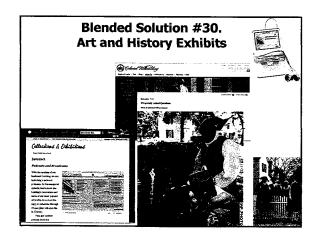

Blended Solution #28. Demonstration Videos with Commenting (e.g., Viddler) Widdler Whenaver Pressured W

Problem Situation #12: Preference for Auditory Learning

 The content is heavily verbal or words. Or students have a preference to listen to a lecture or hear an instructor deliver a lecture.

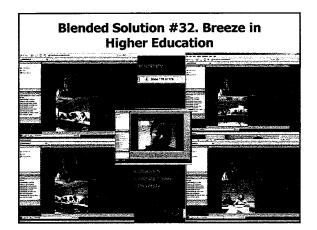

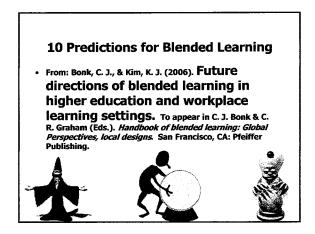

Problem Situation #13: Lack of Instructor Presence

 Students need to see or hear from the instructor. They need a sense that the instructor is supporting their learning. They prefer face-to-face but are willing to try online.

Implications and Challenges for Blended Learning

- 1. Faculty and students are more mobile.
- 2. Students more choices.
- 3. Student expectations rise.
- 4. Greater self-determined learning.
- 5. More corporate university partnerships.
- 6. Courses increasingly modular.
- 7. Less predefined schedules.
- 8. When teaching less clear; when learning less clear.
