

March 2, 2010 "Raising bandwidth, lowered equipment costs, ease of editing and growing expectations of learners will make video a profound component of our learning efforts going forward."

Elliott Masie, Learning Trends,

Bonk (in press)

"Clearly, YouTube technology is something in which students in higher education settings in the United States are highly familiar. It is a tool of the culture. And it is one that instructors from K-12 to higher education to corporate training need to begin experimenting with in their classes."

Why Use Video?

- 1. Importance of shared online video: educational psychologists such as David Ausubel (1978) argued that knowledge was hierarchically organized.
- 2. New learning concepts and ideas to be subsumed under or anchored within prior learning experiences.

Why Use Video?

- 3. Ausubel suggested that new info is going to be meaningful if it is anchored (i.e., attached or related) to what learners already know and understand.
- 4. Advance Organizers: Provide a context, richer learning, can be replayed for key concepts, bring students to the real world, discussion, reflection, common experience, and deep thinking.

√ideo

Why Use Video?

- 5. Dual coding theory (learning information verbally and visually is more richly stored): Alan Paivio.
- 6. Anchored instruction and macrocontexts: John Bransford and colleagues.
- 7. Multimedia theory: Richard Mayer.

Which of these video sharing sites do you use?

- 1. BBC News Video and Audio
- 2. CNN.com Video
- 3. MSNBC.com
- 4. Google Video, Yahoo Video
- 5. Current TV
- 6. Fora TV
- 7. MIT World
- 8. YouTube, YouTube Edu
- 9. TeacherTube
- 10. Link TV, Explore, Global Pulse, Latin Pulse
- Howcast, Big Think, WonderHowTo, Explo.TV, NASA TV, ClipChef, TV Lesson, BookTV, Edutopia videos, MonkeySee, doFlick, the Research Channel, iVideosong

2. Online Video Ender

Online videos are used after discussion and activities as a class "ender" or capstone event.

4. Online Class Previews and Discussions

The instructor(s) finds videos and then posts them to the course management system for students to watch prior to or after class. If students participate in an online discussion based on such videos, the instructor should be clear about the length of post (e.g., two paragraphs) and how many comments of peers to respond to.

6. Pause and Reflect

The instructor(s) plays a portion of a YouTube video and pauses for reflections and then continues playing the video which is followed by still more class reflection.

7. Key Concept Reflections

Instructor shows the YouTube video and asks students to reflect on concepts embedded in it. He may replay the video 1-2 more times while prompting the class for certain key concepts. He might ask students to say "pause" when they see a concept from a particular chapter or unit displayed.

Ten Anchors and Enders: Student Centered

1. Course Resource Provider Handouts

Students find videos and show them in class and discussion unfolds. Students assigned as the cool resource providers for the week are asked to create a handout for the videos and other course resources selected.

4. Student Anchor Demonstrations

Each student brings a video to class and presents and explains how each one is related to course concepts. A coinciding handout of videos and concepts is recommended.

5. Anchor Creators

Students create their own YouTube videos to illustrate course concepts.

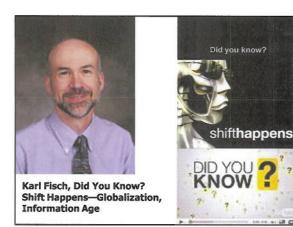

9. Video Anchor Debates

Students are asked to find YouTube or other online video content on the pro and con sides of a key class issue and then use them in face-to-face or online discussions and debates.

10. Anchor Creator Interviews

Students find YouTube videos relevant to course concepts and email interview the creator about the purpose and potential uses of the video or perhaps request that the creator join the class in a synchronous chat.

Bonk (in press)

This is just a small sample of possibilities that each of us now has to learn with shared online video. Seems nearly everyone can find educational uses for shared online video. The potential is immense. Access is increasing. Better evaluation methods and indexing schemes are needed. The time has ripe to put these millions of free videos to work. It may be up to you!

Turn and Share 1-2 ideas you can use...

But who can use shared online video?

Audiences and Uses of Shared Online Video

1. Instructors: start or end a class with online video as an anchor for student discussion and debate, while asking students to reflect on concepts embedded in the videos that relate to course content.

Audiences and Uses of Shared Online Video

2. Formal Learners: find and present online videos to show to the class that demonstrate concepts, provide an historical context for learning material, or integrate multiple topics as well as those that they simply find inspiring within a field of study.

Audiences and Uses of Shared Online Video

3. Informal Learners: browse and watch instructional video sites for situation specific needs and personal interests, including business and finance, healthcare, cooking, crafts and hobbies, sports and fitness, relationships, parenting, travel, technology, and so on.

Audiences and Uses of Shared Online Video

4. Curriculum Developers: embed critical video snippets or complete lectures at key points in a course for learner reflection.

Audiences and Uses of Shared Online Video

5. Librarians: create videos to demonstrate how to use technology resources and tools to access information as well as call attention to any changes in materials, networks, procedures, and operations.

Audiences and Uses of Shared Online Video

6. Executives, Administrators, and Consultants: open or close meetings using short online videos to foster debate or reflection on recent problems, strategic plans, or upcoming events.

Audiences and Uses of Shared Online Video

7. Training Managers: make available a series of videos that employees can watch on-demand when the need arises; especially short, instructional ones that are adapted to hectic schedules and pressing demands.

Audiences and Uses of Shared Online Video

8. Conference Directors and Keynote Speakers: post complete or short summary videos of invited talks and keynote speeches prior to or after a workshop, conference, institute, or summit as a means of sharing and reflecting upon that event.

Audiences and Uses of Shared Online Video

 Bloggers: point to online videos that exemplify a recent issue or emerging trend linking to their blog reflections or extending well beyond them.

Audiences and Uses of Shared Online Video

 Podcasters: embed links to shared online videos that relate to a particular podcast session or set of online audio files.

Audiences and Uses of Shared Online Video

11. Global Educators, Consultants, and Heads of Non-Profit Agencies: post videos that exemplify a mission statement or stated goals as well as recent societal issues and problems as a means of attracting attention

and dialogue.

Audiences and Uses of Shared Online Video

12. Government Agencies and Politicians: post online videos that relate to proposed or newly adopted policies, activities, and events.

Audiences and Uses of Shared Online Video

 Retirees: watch online videos to learn new skills and competencies or explore personal hobbies and interests.

Audiences and Uses of Shared Online Video

14. Unemployed: search for and access videos that can add new skills, fine-tune existing ones, or arouse new career interests altogether as well as share what has been found with others in the same situation.

Advice and Guidelines

- When using shared online videos, consider the learning theory or approach makes them more powerful than other media.
- 2. Assign students to reflect on why or how you used them.

Advice and Guidelines

- 3. Length of video for activities should be less than 10 minutes and preferably under 4 minutes.
- Considering offering online video creation as an option—can foster student creativity.

Advice and Guidelines

- Instead of finding all course videos, offer the student the chance to find and show 1-2 free online videos.
- Watch and approve all videos before selecting. And test for link rot.

Advice and Guidelines

- Have back-up videos in case do not work or are taken down.
- Have a guidesheet, job aid, or scaffold to help students evaluate the validity of sources (issues of credibility/authority, quality, design, etc.)

Final Thoughts

It is important for instructors to begin to reflect on the power of such online video technology, to experiment on their use, and to share their results.
