#### Design Principles for a Student-Centered Higher Education Ecosystem

1. Design for the student experience.
2. Design for the faculty experience.
3. Design for the institutional experience.
4. Design for the community experience.
5. Design for the global experience.
6. Design for the future experience.

#### Student-Centered Higher Ed Ecosystem

## The R2D2 Method

1. Read (Auditory and Verbal Learners)
2. Reflect (Reflective Learners)
3. Display (Visual Learners)
4. Do (Tactile, Kinesthetic, Exploratory Learners)

## 1. Auditory or Verbal Learners

- Auditory and verbal learners prefer words, spoken or written explanations.

(e.g., Mozart: <http://www.mozartproject.org/>)

The Mozart Project website features a prominent portrait of Wolfgang Amadeus Mozart and a list of his compositions. The text on the page reads: "The Life, Times and Music of Wolfgang Amadeus Mozart" and "Thank you for visiting The Mozart Project. Since it was created in 1997—more than 20 years ago in Internet time—people like you have made it one of the most-visited Mozart sites on the World Wide Web. In those early days there was a serious lack of information about Mozart online, and this site was created purely in response to that. Times have changed. An Internet search now returns almost 227 million references to Mozart. Meanwhile, other personal projects meant this site could not be maintained. It had become woefully out-of-date and had little chance of growing in the new future. So, for now, everything that was getting a little dusty has been removed. But the core is still here, to continue to be a useful, shared place. Mozart Project. Perhaps some day it will grow again. Until then, feel free to begin your Mozart experience here—or to continue to use it as a reference."
